TECHNICAL DETAILS

Housings: Available in IC (direct contact with insulation) and Non-IC (non-insulated ceilings) options. Accommodates ceiling thicknesses up to 1-1/4". Airtight, gasketed design meets ASTM E-283 Airtight standards. Metal housing for improved heat dissipation with galvanized steel frame construction.

Trims: Precision-manufactured with powder-coated or anodized finish. Durable diecast trim ring. Certain trims offer adjustability while maintaining a flush ceiling appearance – see trim specifications. Optional baffle trims reduce glare.

Installation: Compatible with 2x6 joists or taller, as well as T-grid and drop ceilings. Pre-installed adjustable hanger bars with True Nail system; extendable to 24" and easily shortened without tools. Trim clips secure ring flush to ceiling and prevent sagging.

Junction Box: Seven 1/2" conduit knockouts and four Romex pryouts with built-in strain relief.

Electrical: Input: 120V AC, Output: 120V AC
Maximum Wattage: 12W (IC single wall, LED only); 50W (IC double wall or Non-IC, Halogen). Dimming performance is based on the lamp used.

Lamp: For GU10 MR16 lamps. 12W housings designed for LED lamps. 50W housings designed for Halogen lamps.

Listings: UL Listed for Damp and Wet Locations (with select trims). Feed-through rated. IC housings approved for direct insulation contact. Title 24 compliant when paired with JA8-2022-E lamps.

Warranty: ELCO Lighting warrants all products to be free from defects in materials and workmanship for one (1) year. See complete terms and conditions for details.
